EVRENİN ÖZÜ

ESSENCE OF THE UNIVERSE
INTERNATIONAL MAIL ART PROJECT

“Essence Of The Universe”
International Mail Art Project

Early Greek philosophers tried to explain the essence of the universe by asking questions like "What is the universe made of / what is the very first reason of the universe?", and they also talked about a related essence with this universe.

However, Thales tried to observe the nature by intelligence rather than taking it divinely.

In today’s questioning the universe,
Toady, while questioning of the universe, the pursuit of mankind, which has been filtered by the mind, continues through science, philosophy and art. Today's scientific information indicates that everything consists of different vibrations and frequencies, and the material contains certain concentrations of energy.

Dark matter, x-ray, particle physics, quantum, string theory and many others ..!

So, What do you think about the essence of the universe?

“Evrenin Özü”
Uluslararası Posta Sanatı Projesi

Erken dönem Yunan filozofları, “Evrenin ana maddesi/ilk nedeni nedir” türünden sorular sorarak evrenin özünü açıklamaya çalışmışlardır ve yine bu evrenle alakalı bir özden söz etmişlerdir.

Fakat Thales, kutsal olanı düşünmek yerine doğaya bakmış olup dünyayı aklıyla gözlemeye başlamıştır.

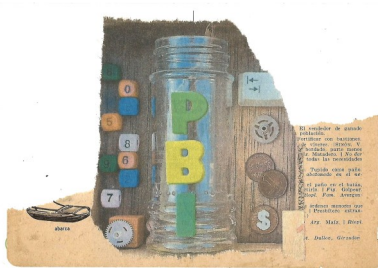

Bugün evren sorgulayışında, gözlemlerini aklının süzgecinden geçiren, insanoğlunun arayışları bilim, felsefe, sanat yolu ile devam etmektedir. Bugünkü bilimsel bilgiler, her şeyin enerjinin farklı titreşimlerinden, frekanslarından oluştuğunu ve maddenin, enerjinin belirli yoğunluklarını içerdiğini belirtmektedir.

Karanlık madde, x ışını, parçacık fiziği, kuantum, sicim teorisi ve birçokları!..

Peki sizce evrenin özü nedir?

THE NEMESIS

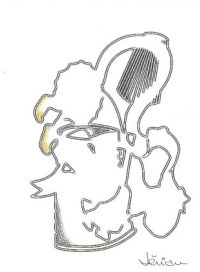

Teeth and claws
clink behind a barn
with old metal spoons
feeding the evil laws
of the land likened
to smiths' works
in contrast to brothels
and bars. Objects
of praise accumulate
in the treasury,
magisterial clocks
featuring material wrongs.

The baron smells
fresh meat in stalls,
distributors' bar-coded
collections, fattened
objects, stains
on cloth finery,
hords of alphabetized
letters from marines
in prison yards,
images of fierce faces.
The original explosion
of night is fiercer still.
