UZAYDA İNSAN KOLONİLERİ ULUSLARARASI MAİL ART PROJESİ

HUMAN COLONIES IN SPACE INTERNATIONAL MAIL ART PROJECT

“Human Colonies in Space”
International Mail Art Project

The artists have established their colonies, now it is your turn!...

"Human aggression could destroy us all. ”
Stephan Hawking

In the past, I have carried out international mail art projects with the concepts of “Global Warming”, “Woman and Ecology”, “Watch”, “Gypsies”, “the Homeless” and “Fundamentalizm”, to be able to popularize the mail art. 83 artists from 19 different countries have participated in the mail art project of “Human Colonies in the Space” of which I was the curator. This year, the number of the participants from the Turkey was pretty much. This scenario proves that the mail art has started to become widespread in our country.

Briefly speaking about the content of the project;
The mail art project “Human Colonies in Space” is an effort to create a sensitivity to achieve the utopia of human existence. The fact that the our planet’s rapid growth; the decline of living areas and the competition issues makes essential to head towards out of the earth. The colonization in the space against a serious potential disaster that can occur in the world is the prerequisite for the humanity to be able survive its existence.

This project “Human Colonies in Space” is hereby an effort to create a sensitivity to achieve the utopia of human existence. I hope this current project, to some extent, will contribute by making the participants turn their heads to the sky.

“Uzayda İnsan Kolonileri”
Uluslararası Posta Sanatı Projesi

Sanatçılar kolonilerini kurdu, şimdi sıra sizde!....

"İnsanoğlunun saldırganlığı nükleer savaşlara yol açabilir.”
Stephan Hawking

Türkiye’de posta sanatını yaygınlaştırmak amacıyla geçmişte "Gözetleme", "Kadın ve Ekoloji", "Küresel Isınma", “Fundamentalizm”, “Evsizler”, “Çingeneler” konseptli uluslararası posta sanatı projelerini gerçekleştirdim. Küratörlüğünü gerçekleştirdiğim “Uzayda İnsan Kolonileri” posta sanatı projesine 19 ülkeden 83 sanatçı iştirak etti. Bu sene Türkiye’den katılımcı sanatçıların sayısı oldukça fazlaydı. Oluşan bu tablo ülkemizde posta sanatının yaygınlaşmaya başladığının bir kanıtını oluşturmaktadır.

Projenin teması üzerine biraz bilgi verirsek;
Gezegenimizin nüfusunun hızla artması, yaşam alanlarının azalması ve kaynaklar için oluşan rekabet sorunu, dünyanın dışına yönelmeyi gerekli kılıyor. Dünyada oluşacak olan ciddi bir felaket karşısında uzayda kolonileşme , insanlığın varlığını sürdürebilmesinin ön koşulunu oluşturuyor.

“Uzayda İnsan Kolonileri” posta sanatı projesi, insan varlığının ütopyasını gerçekleştirmesi yolunda bir duyarlılık oluşturma çabasıdır. Umarım bu mevcut proje, izleyenlerin başlarını gökyüzüne çevirmelerinde bir nebzede olsa katkıda bulunur.

Şinasi Güneş
